https://github.com/suryaraj1/

## PROJECTS

**Developer Repository**

- A fullstack app where any developer can visit and create a repository with all their   online identities and also of their connections. The app is responsive and deployed to Heroku.
- Profile information was received from the GitHub API
- Technologies used – React, NodeJS, Express
- Github Repository - https://github.com/suryaraj1/DevelopersProfile
- Demo - https://developer-profile-app.herokuapp.com/

**Unsplash Clone**

- A fullstack app which simulates the website Unsplash where any user can add, delete and view photos with a clean and minimal UI. The app is responsive and deployed to Heroku.
- Technologies used - React, NodeJS, Express
- Github Repository - https://github.com/suryaraj1/UnsplashClone-1.0
- Demo - https://unsplash-clone-webapp.herokuapp.com/

**URL Shortner**

- A web app with a minimal User Interface that converts a regular URL into its condensed version.
- The user needs to paste the full URL and is returned with a shortened URL.
- Technologies used – HTML, CSS, NodeJS, Express
- Github Repository - https://github.com/suryaraj1/url_shortner
- Demo - https://url-shortner11.herokuapp.com/

**Language Translator**

- A translator that makes the hectic process of language translation slightly easier.
- The project uses MyMemory API for translation and is deployed to Netlify.
- Technologies used – HTML, CSS, JavaScript
- Github Repository - https://github.com/suryaraj1/language_translator
- Demo - https://language-translater.netlify.app/

## EDUCATION

| | | |
|---|---|---|
| Electronics and Communication Engineering | **Meghnad Saha Institute of Technology, Kolkata** | **Jul-2017-Ongoing** |

- GPA: 8.4/10.00.

## ADDITIONAL ACTIVITIES

- Rated 4 stars on Codechef. Profile - https://www.codechef.com/users/maxboom321
- Qualified Google Code Jam 2020, 2019.
- Ranked 3rd in Hackatronix Onsite Coding Contest (organized by NSEC).
- Ranked 2nd in Encoding Junior Coding Contest (organized by NSEC).
